MEMORANDUM TO THE BOARD

SUBJECT: NIE-35 INDOCHINA

1. The attached draft represents the remaining unagreed sections of NIE-35, which have been revised in accordance with the Board's wishes. The earlier sections of NIE-35 have already been agreed to by the IAC Representatives.

2. Per instruction of the Board, the draft concludes that although in event of a Korean disengagement the possibility of Chinese Communist intervention in Indochina will increase, we do not believe such intervention will take place before the end of 1951.
